

# Dr. Joseph Prendergast

## USA's "Father of the Year"

When the American Diabetes Association named Dr. Joseph Prendergast "Father of the Year" for 2008, he was thrilled, but since his children were grown, he asked, "why me?" It was a simple choice. The ADA honors Dr. Joseph Prendergast for:

- \* Saving more lives than any other physician in the USA
- \* Clinically testing and documenting the results of more than 6,000 of his own patients
- \* Not admitting ONE patient to a hospital in 19 years
- \* Not losing ONE patient to Heart Attack or Stroke in 19 years

Dr. Joseph Prendergast  
Practicing Endocrinologist, 35 years  
Synergy Medical Advisory Board

### World Expert in integrative L-Arginine

Based on Nobel Prize-Winning science, and working in cooperation with Duke, Stanford, and Harvard Medical Schools, Dr. Prendergast has developed life-saving medical protocols that are shown to reverse disease and a myriad of other health risks including:

- \* Heart Disease
- \* High Blood Pressure
- \* Diabetes
- \* Sexual Dysfunction
- \* High Cholesterol
- \* Osteoporosis
- \* Dementia
- \* Alzheimer's
- \* Chronic Pain
- \* Migraine Headaches
- \* Arthritis
- \* Depression
- \* Menopause
- \* Cancer
- \* Lack of Energy
- \* And More...

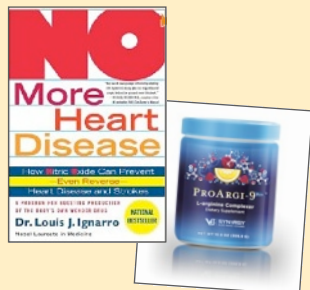

### Human Clinical Study on Heart Disease

The High Desert Heart Institute (HDHI), an affiliate of Cedars-Sinai Hospital, provides stellar primary care and heart disease services to its high-risk patient base.

HDHI is conducting the most comprehensive human clinical trial ever conducted on a nutritional supplement that will prove the efficacy and the profound health benefits of ProArgi-9 Plus.

HDHI is funding, administering, and directing this clinical study along with collaboration from Dr. Prendergast.

Thirty Five high-risk test patients with multiple health complications have been given comprehensive baseline blood labs, are being given therapeutic doses of ProArgi-9 Plus, and are being monitored daily to clinically validate the efficacy of ProArgi-9 Plus.

The 1998 Nobel Prize Winner, Dr. Louis Ignarro, says ingredients in **ProArgi-9 Plus** "can prevent cardiovascular disease and help reverse it - without prescription drugs."

The High Desert Heart Institute, in Victorville, CA, is conducting a comprehensive human clinical study on ProArgi-9 Plus that will prove its ability to reverse and prevent heart disease.

**ProArgi-9 Plus is ONLY available through Synergy WorldWide, a world leader in nutraceutical products.**
